NATURE'S INSPIRATION

Designed from the heart of a Spanish artist, the Simon V8 Nature is a representation of the most modern western aesthetics. Traditional switches are 86mm compared to V8 Nature that is 95 mm, a perfect proportion and style.

The Simon V8 Nature adopts natural pure glass for the frames, which is glittering and translucent bringing an outstanding, elegant and fresh feeling to luxury environments.

Simon V8 Nature has unique patented features (CN200420020630.7). The switch on/off pulse speed is 0.03 seconds, 50% faster than normal switches. Moreover, it avoids electric arc and has longer lifespan.

Wood

Inspired by the effect of the elements on materials, Simon V8 Nature, envelops emblematic spaces with a minimalist design and unique materials inspired by nature: glass, nature wood, stone and metal.

V8 NATURE

SERIES

More protection: safer and durable

No:1

Tempered glass frame

Tempered glass materials, glittering and translucent. It is strong and anti-abrasive.

No:2

Insulating layer

High quality PC plastic material from Bayer. The PC material is resistant to heat and transmits good elasticity. The double protection between the frame and the mechanism make it safer and durable.

No:3

Insulated steel baseboard

Resistant steel based board and stainless insulating coating base board. It is anti-corrosive with a strong base that allows better integration between the switch and the mounting box.

SIZE

Benefits

More reliable and protects the environment.

With instant on/off and safer.

Suitable for many types of cables.

Easy to do the wiring in a limited space. It reduces the installation time.
