## Simon in the world

Simon was established by ARTURO SIMON in 1916. The earliest factory was located in Olot, Catalonia, Spain. In 1972, the headquarters of Simon Group was relocated to Barcelona, which is renowned as the Flower of Europe.

Simon mainly specializes in producing low-voltage electrical apparatus and related components under its own brand, as well as lamps. It also produces a variety of relevant products for building control and smart security systems. Always dedicated to product innovation, Simon has developed many products with intellectual property rights and won many honors, such as Spanish Royal Outstanding Enterprise and Spain's national Product Design Award.

Through a century of development, Simon Group has established 21 subsidiaries in countries around the world, including China, Russia, India, Brazil, Mexico, Turkey, Poland, Italy, France, Ukraine, Belgium, Morocco, Argentina and Portugal, 17 overseas production bases and a sales network that covers over 90 countries and regions across four continents.
