ZENCELO

Schneider Electric

Your home is more than four walls; it is a living, breathing space.
The sanctuary where your journey unfolds and evolves.
A place for every mood and any occasion.
Your home is full of life, love, laughter, family, friends and fun.
We help adapt your home to the rhythm of your life.
We provide ingeniously designed solutions to enhance your life.
We create technology that brings your home to life.

Life Is On
by Schneider Electric™

An outstanding person adds value to the work and life of other people, always doing the right thing in the right place, with an appropriate degree of visibility. The art of addition is not about shouting out loud. It's about an in-standing way of being.

ZENcelo, the revolutionary F ull-Flat switch for an in-standing interior design.

in•stan•ding / n'stænd / *n* **1** The wisdom of being able to distinguish exquisite from extravagant, substantial from superficial, and truly outstanding from merely standing out; **2** The ability to mix and match the best in life without being constrained by hype or stereotype; **3** The self-confidence that comes from being able to live with the approval of one's inner soul rather than conforming to peer-pressure; **4** A refusal to simply follow the crowd. *adj* A state of displaying in-standing characteristics, esp. in relation to behaviour or lifestyle

THE REVOLUTIONARY
FULL-FLAT
SWITCH

The Full-Flat form factor has redefined many facets in life. Aeroplane seats. TVs. Mobile phones. Electric stoves... And now, switches.

Aesthetically pleasing flat switches are in fact available but they are exclusive to luxurious electronic switches and lighting automation systems. The ZENcelo Full-Flat switch has been created for the majority of people who use electromechanical switches and for switches you would never have imagined could be Full-Flat...

With ZENcelo, luxury is no longer defined by price but by wisdom and style.

ENABLED BY A
NEW PHYSICS

Switch designs are limited by many factors, primarily the switch mechanism. The patented "impress" (iso-motion-press) mechanism ensures the switch dolly remains stationary when it is "on" or "off", and at the same time occupying a much smaller footprint. Freedom in design has become a reality.

Enabled by the impress.mechanism, ZENcelo makes the future flatter than you ever imagined.

I'm'press™
mechanism
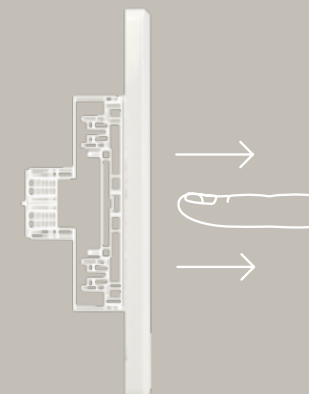

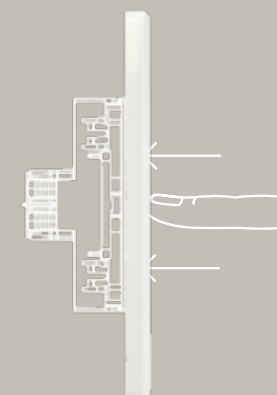

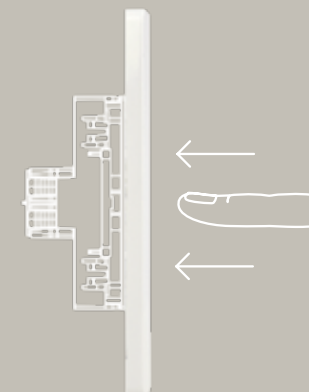

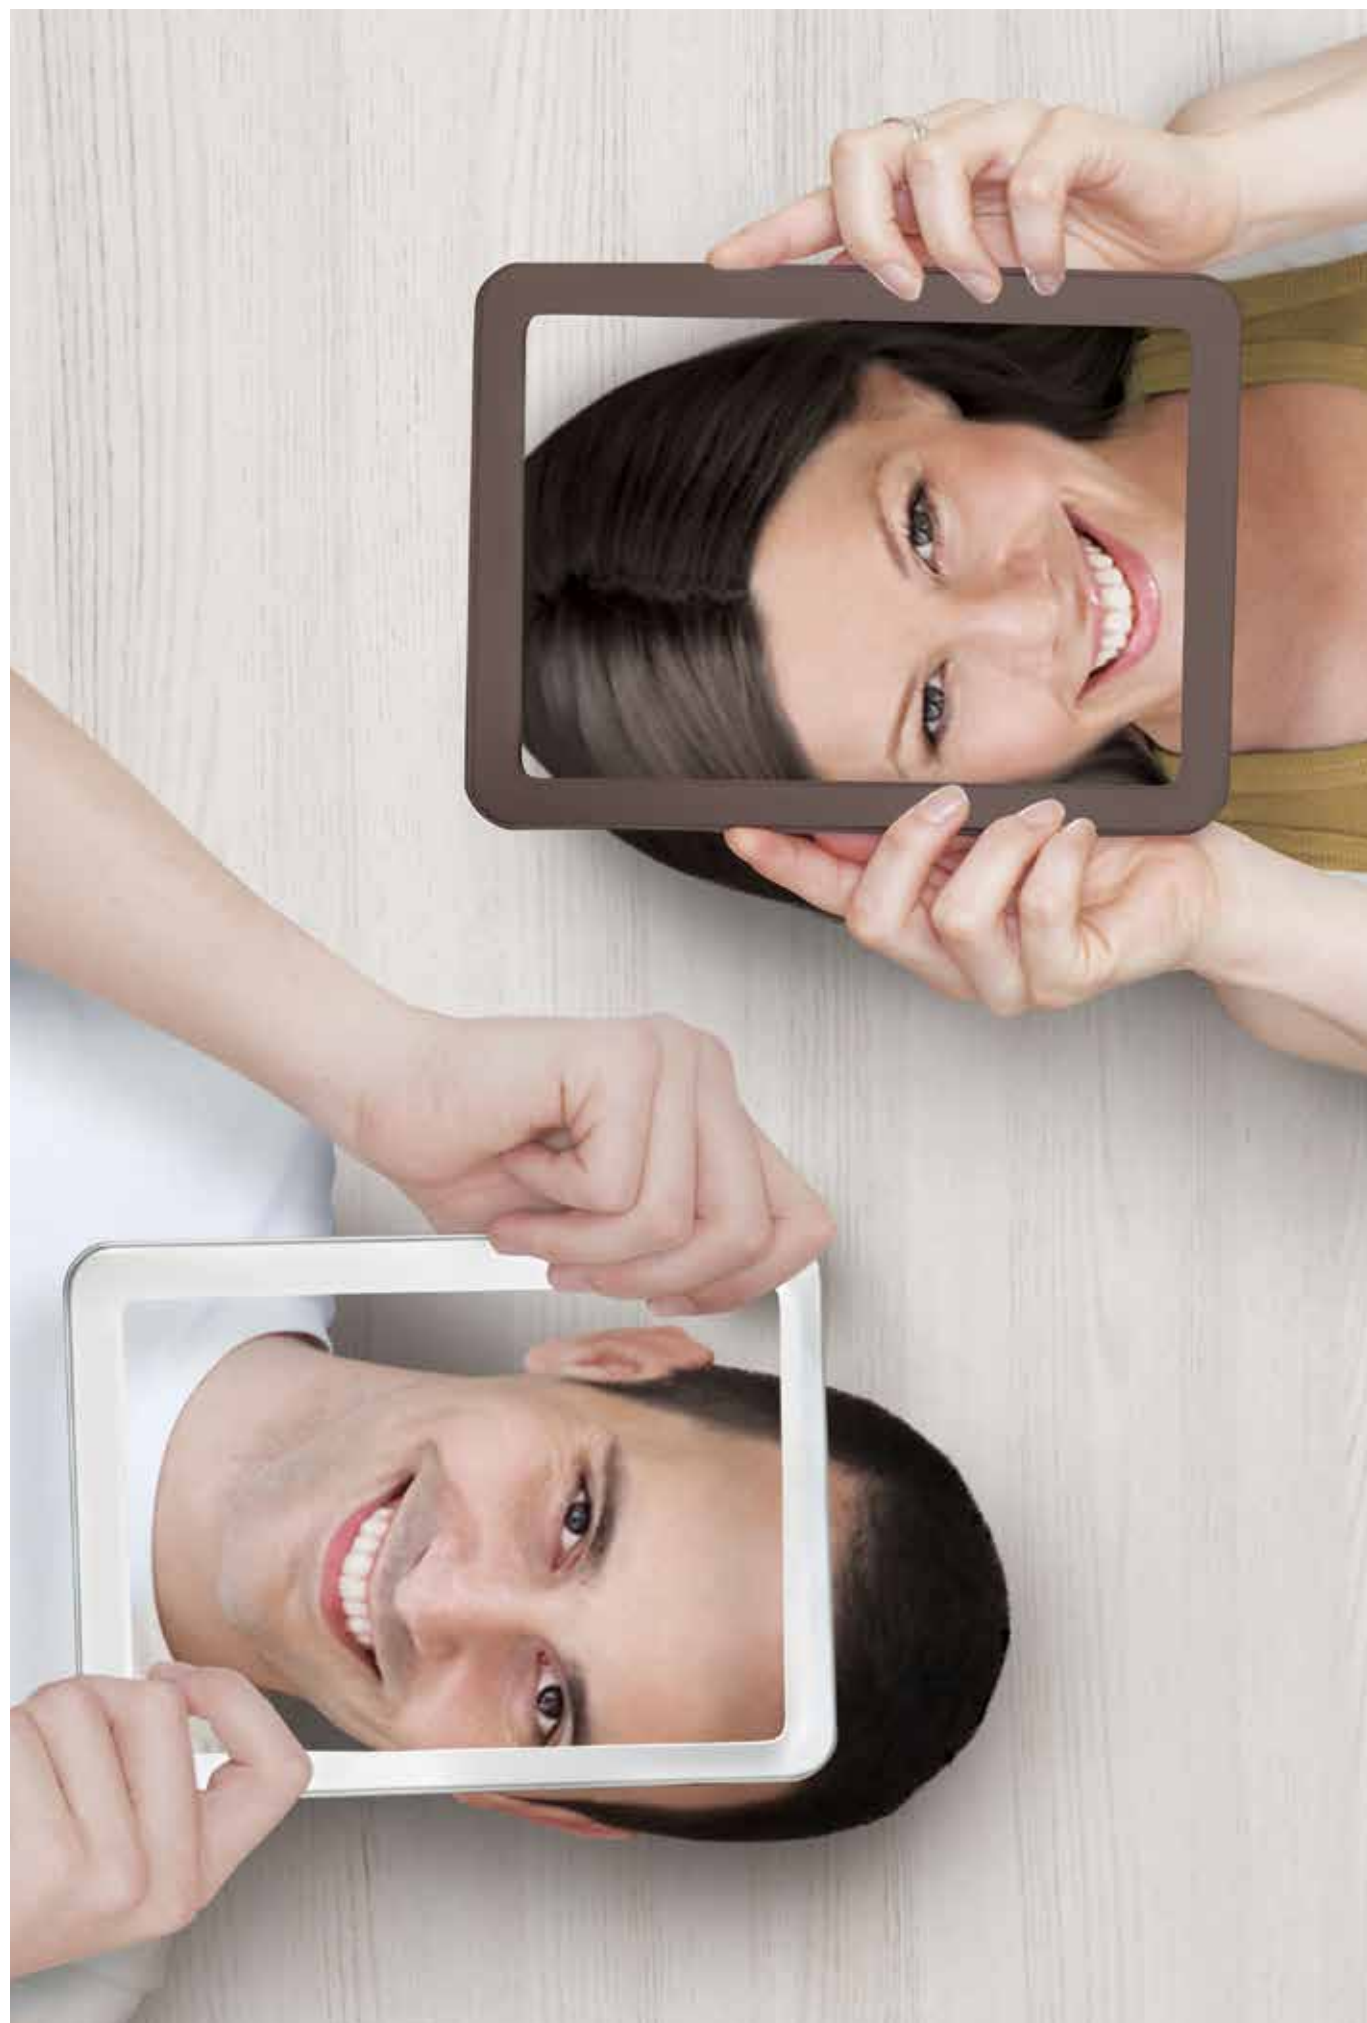

COLOUR OPTIONS THAT ARE ANYTHING BUT FLAT

ZENcelo's switches come in a chameleon-like palette of colours, blending seamlessly with even the most highly stylised, contemporary setting.

Standard fascias include timeless white and the zen-attuned silver-bronze plus hundreds of colour imagination customisable options.

INDICATE THE
CURRENT STATUS

Form does not sacrifice function. Knowing when a Full-Flat switch is turned on is not taken for granted. The only mechanical switch to offer LED locators and indicators, ZENcelo features an amber LED that gives off a unique soft glow at night or in dark areas to tell you exactly where each switch is located.

The stylish visual aspect of the amber LED and its meticulous design is perfectly complemented by outstanding performance, excellent reliability, a long lifespan and energy-saving characteristics. ZENcelo's subtle glow is the ultimate example of practicality and style working in perfect harmony for residential and commercial environments.

The use of fluorescent locators is another ZENcelo option. Unobtrusive by day, each indicator emits a soft green glow when it gets dark.
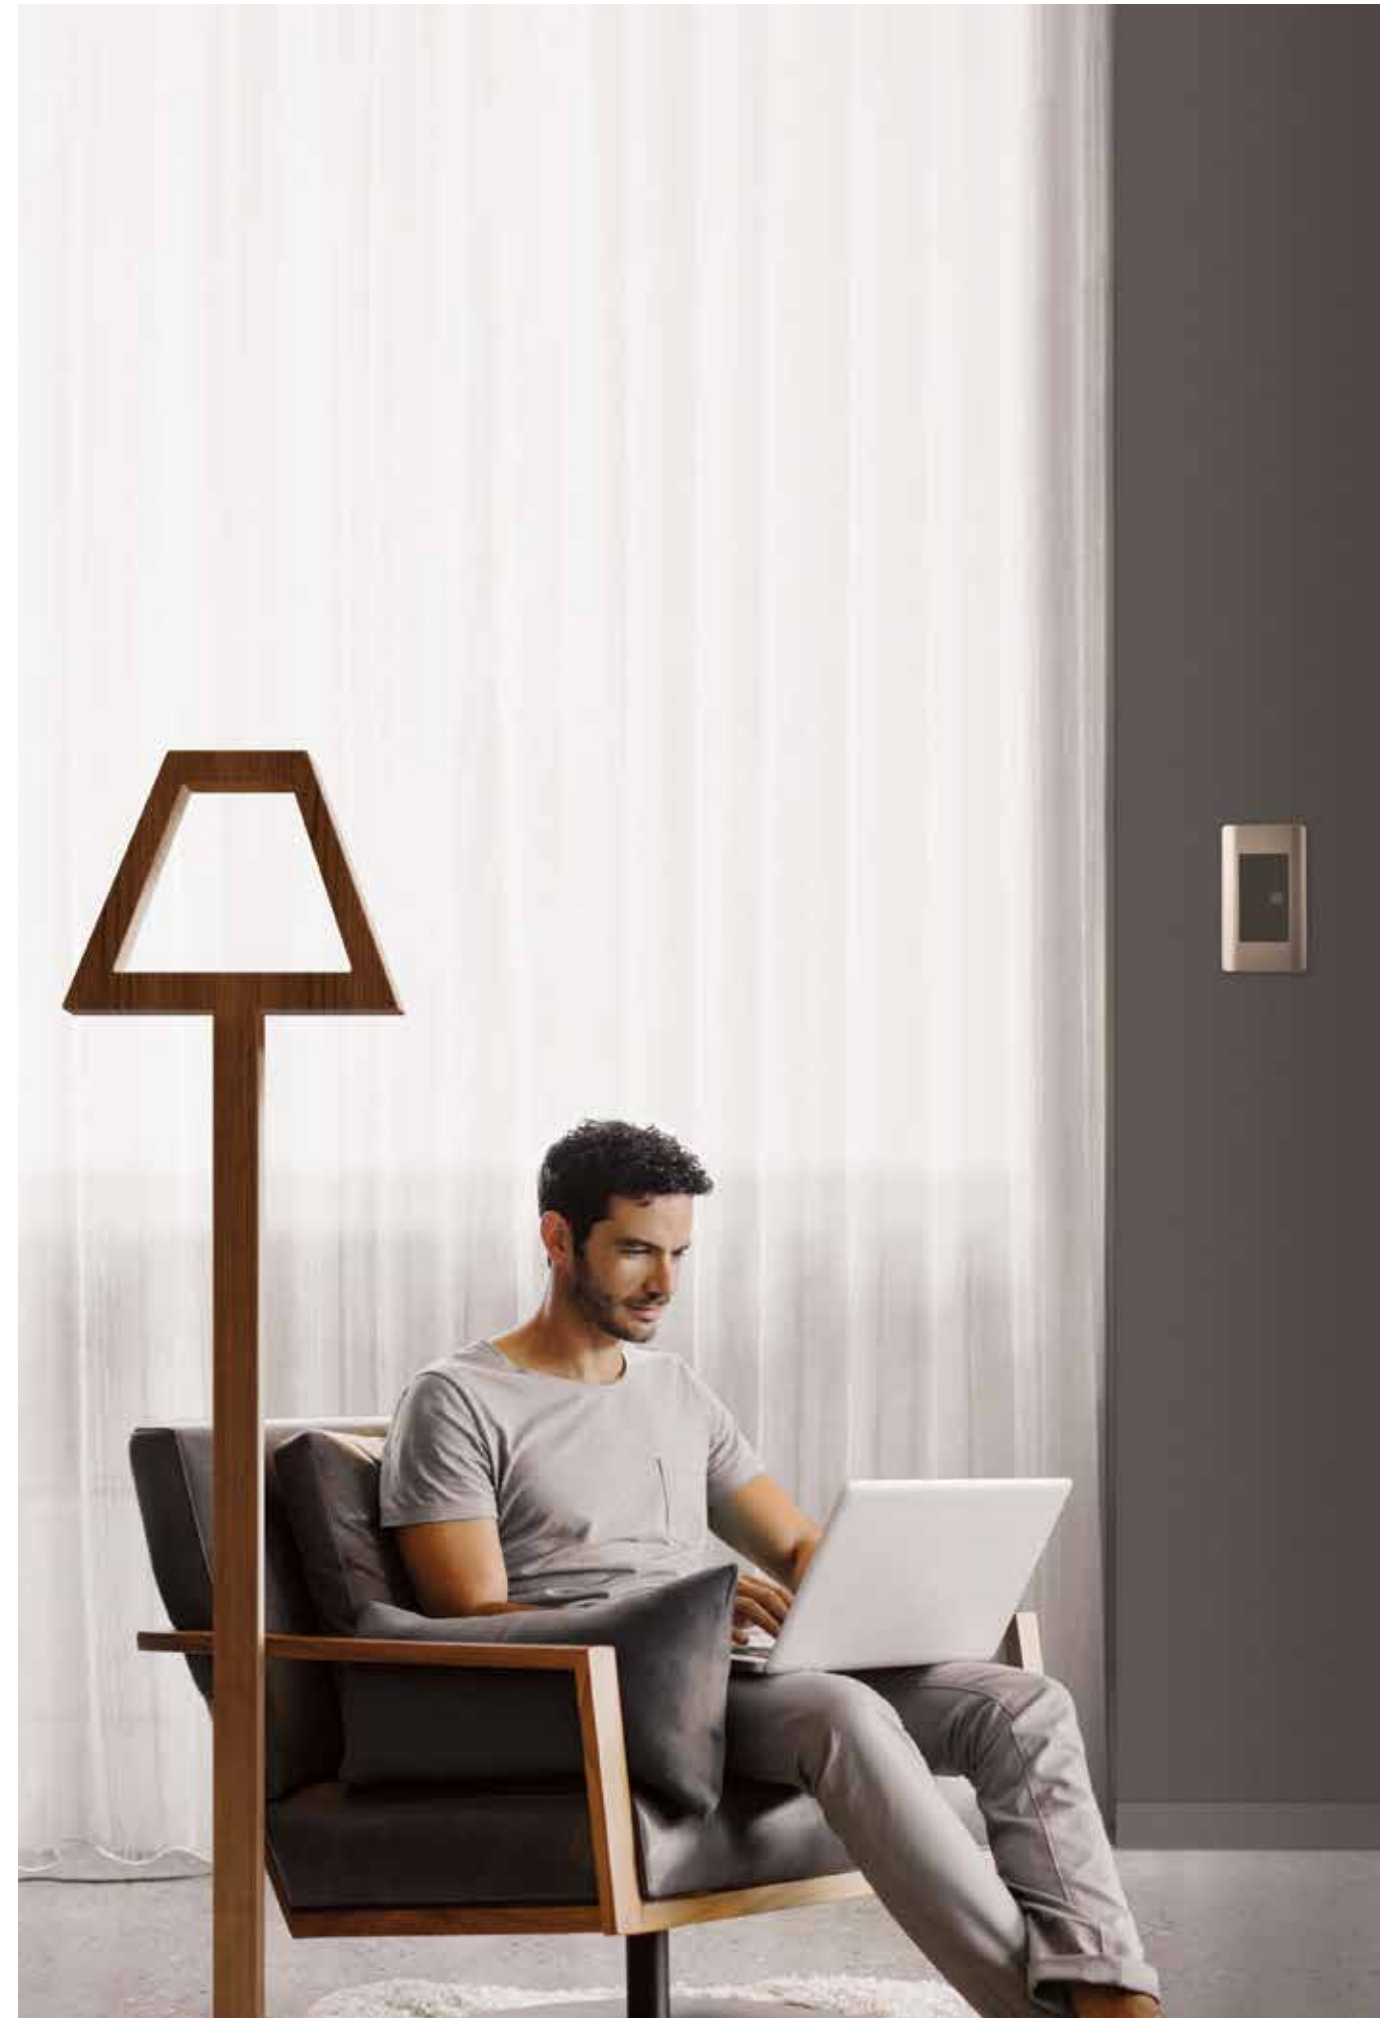

MIX-AND-MATCH POSSIBILITIES

The ZENcelo switch has been designed with mix-and-match modular switch possibilities as well as Full-Flat form and LED locators. ZENcelo uses modular mechanisms that allow you to combine switch and socket configurations to suit your specific needs. Enjoy great flexibility with this modular concept and create combinations to match any décor.
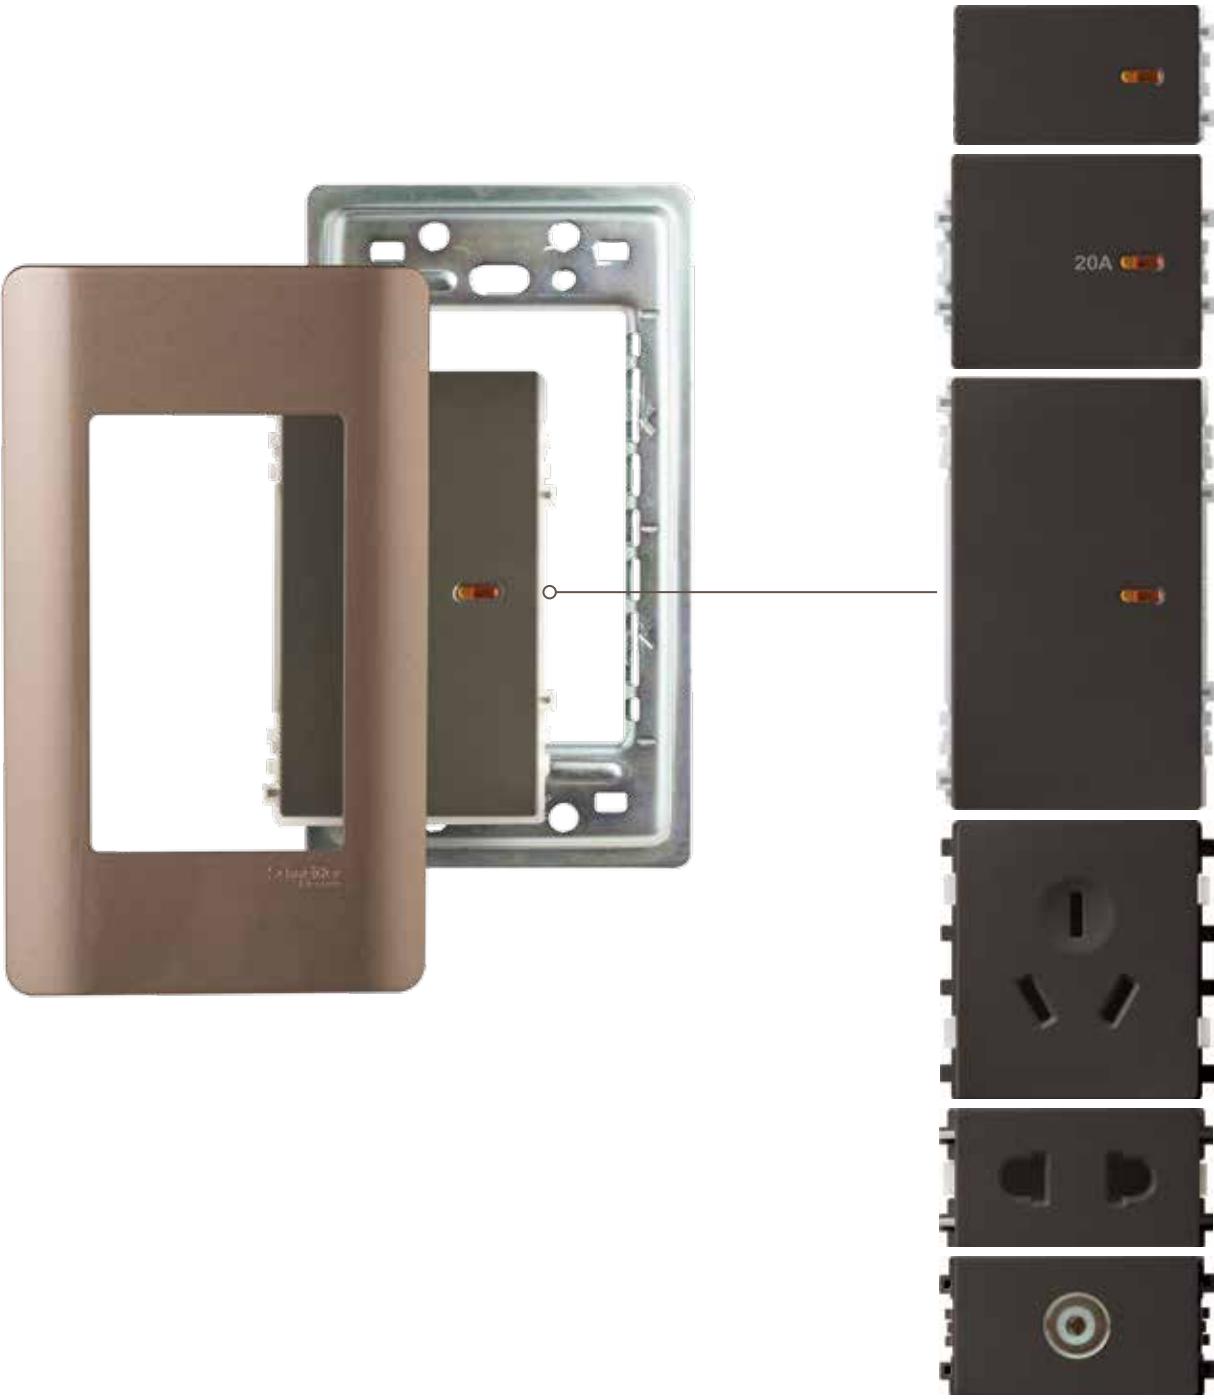

DESIGNED
DOWN TO THE
SMALLEST DETAIL

The sophisticated simplicity of ZENcelo
doesn't stop with the aesthetics. The ZENcelo
metal grid plate is rugged to reduce the
risk of distortion resulting from forced
installation. It allows you to position the
standard-sized modules anywhere along the
inner slots of the grid plate to enable fast
and easy installation. ZENcelo also offers
an interchangeable modular solution with
insurmountable flexibility to mix-and-match
countless switches and sockets.

All module terminals are clearly marked with
symbols to enable error-free wiring. The
push-in terminal slots have coloured release
keys for clear cabling and allow the wire to
come into the slot and be secured tightly with
the release key.

ZENcelo push-in terminals enable fast and
easy installation.

OUTSTANDING HOSPITALITY
FOR THE LEISURE AGE

Nowadays, people are "always on" even when they are travelling. Hotels that want to deliver a satisfying experience to their guests, will install in their rooms the latest in power, connectivity and service management. It is all the better when this is done in style.

ZENcelo's consistent design excellence excellence is apparent in all its products from simple switches to comprehensive 220V hotel accessories. They display the best of ZENcelo form and function.

ZENcelo ELV+ wall plates eliminate compatibility problems between data cables and conventional 240V electrical connection terminals. The result is a straight-forward and speedy installation with a more reliable performance.

ZENcelo MAP (Media and Power) Panel lets hotel guests link their multimedia devices to the in-room audio and video system so they can enjoy their personal entertainment in their rooms. The ZENcelo MAP-i can automatically detect which digital device is connected and its USB port facilitates the charging of the connected device's battery. Equipping hotels with MAP Panels will elevate hotel services to unparalleled levels of quality. Apart from general RCA input, MAP Panel also supports HDMI, USB, audio and computer input to the television.

Truly well designed, truly excellent quality, and truly compatible with more plugs than any other, TruGlobal Socket is the truly smart choice. The TruGlobal socket is compatible with the plug standards of business and leisure travellers - the widest coverage in the history of sockets.

EMBRACE QUALITY

Made of corrosion resistant, heat resistant and impact resistant polycarbonate.

Data socket integrated with shuttered flush-faced to enable dust protection.

Electrical socket with reinforced-nylon protective shutter.

Switches are electric-arc encapsulated.

Switches tested to 80,000 times. Sockets tested to 15,000 cycles. Durable for more than a decade.

GB, IEC, CNS, TIS or BPS compliant.

All RoHS compliant.

Description	Product Number

30 Mech Dimmer and Fan Controller Modules

The Blank Cover for Dimmer / Fan Controller Product must be Compatiable with the following Models of Schneider Electric Products

Description	Product Number
500W Dimmer Module	32V500M
350VA Universal Dimmer and Fan Controller Module, Integrated with Switch ON/OFF Function	31E2RUDM
400VA Fan Controller Module (Not Recommend for 2 Gang Assembling)	32V400FM
500VA Fan Controller Module	32E500FM

Dimmer and Fan Controller Blank Cover Modules

Description	White	Bronze
Blank Cover with Rotary Knob for 30 Mech Dimmer Module	8430MDRP_WE	8430MDRP_BZ
Blank Cover with Rotary Knob for 30 Mech Dimmer Module, Horizontal	8430MDRPH_WE	8430MDRPH_BZ
Blank Cover with Rotary Knob for 30 Mech Fan Controller Module	8430MFRP_WE	8430MFRP_BZ
Blank Cover with Rotary Knob for 30 Mech Fan Controller Module, Horizontal	8430MFRPH_WE	8430MFRPH_BZ

Blank Cover Modules

Description	White	Bronze
Blank Cover 1M Sized Module	8430SP_WE	8430SP_BZ
Blank Cover 3M Sized Module	8430LP_WE	8430LP_BZ

Cover Plates

Description	White	Silver Bronze
Surround & Gridplate for 1M Sized Module	A8401S_WE	A8401S_SZ
Surround & Gridplate for 1.5M Sized Module	A8401M_WE	A8401M_SZ
Surround & Gridplate for 3M Sized Module	A8401L_WE	A8401L_SZ
Surround & Gridplate for 1M Sized Module, Horizontal	A8401SH_WE	A8401SH_SZ
Surround & Gridplate for 1.5M Sized Module, Horizontal	A8401MH_WE	A8401MH_SZ
Surround & Gridplate for 3M Sized Module, Horizontal	A8401LH_WE	A8401LH_SZ
Surround & Gridplate for 4M Sized Module, Horizontal	A8401XLH_WE	A8401XLH_SZ
Duplex Surround & Gridplate for 2 x 3M Sized Module	A84T02L_WE	A84T02L_SZ
